TEAM NAMMA SHAALE · CHALLENGE 3: TEACHER SUPPORT & TRAINING

His wisdom won't retire.

Parampara ಪರಂಪರೆ

A headmaster's 32 years of classroom wisdom, in every young teacher's pocket, by voice, in Kannada.

01 · THE PROBLEM

Every master teacher's knowledge has a retirement date.

When the colleague who solved her problem retires, the answer leaves too.

KARNATAKA · UDISE+ 2025-26

8,042

Karnataka schools with **one teacher**. No colleague to ask.

15.4%

of Class 3 children in Karnataka government schools read a Class 2 text.

60

Retirement age. Decades of craft walk out with it.

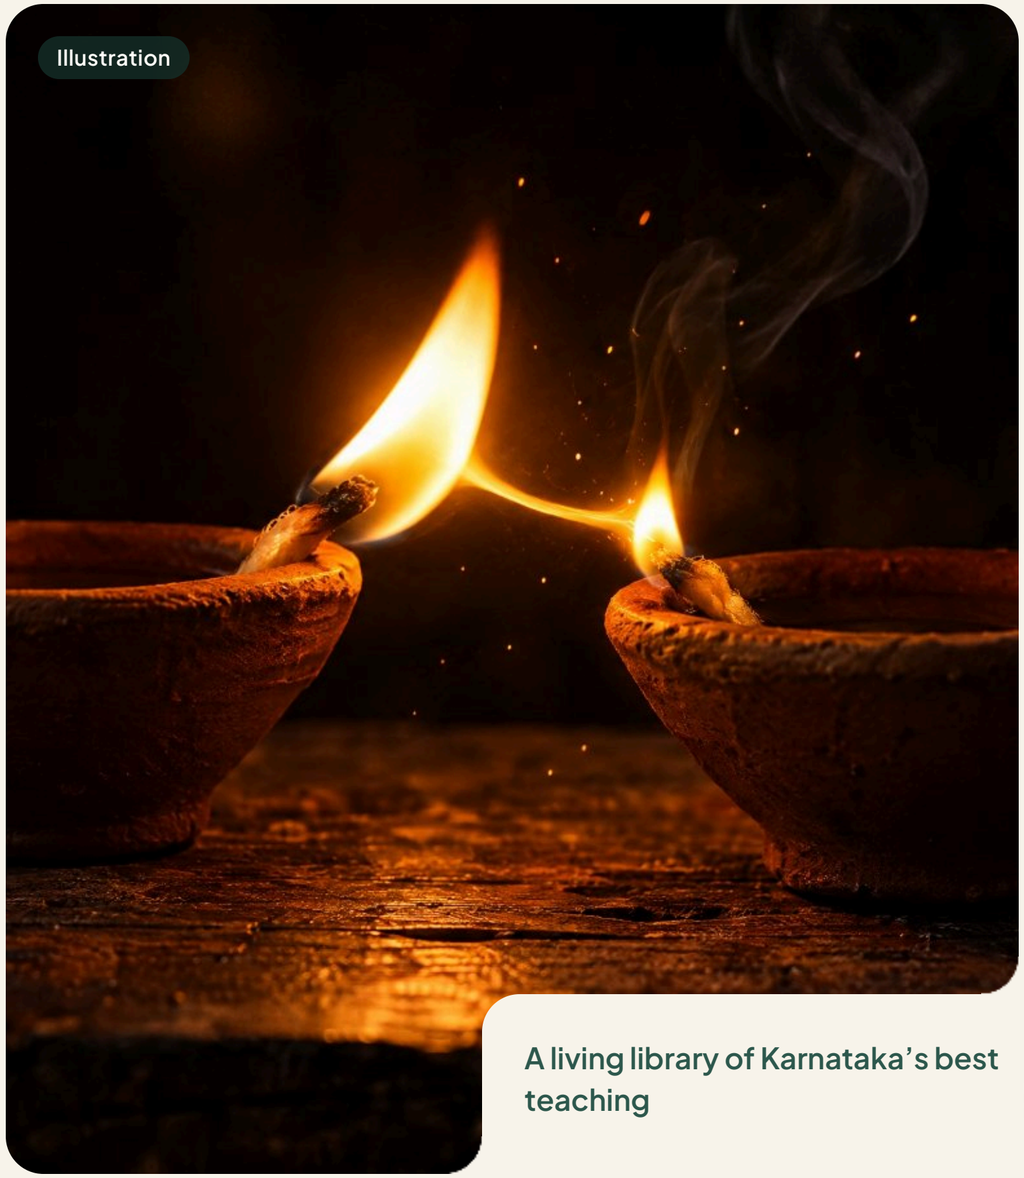

98%

of teachers already have a smartphone.

0.49 SD

Coaching changes practice this much, but rarely reaches scale.

04 · CAPTURE AND CHECK

Seven WhatsApp voice notes. Six checked practice cards.

One master, nothing new to learn. He used what he already uses.

APPROVED CARD, HIS WORDS

From lines and circles to writing letters

ಗೆರೆ, ವೃತ್ತದಿಂದ ಅಕ್ಷರ ಬರವಣಿಗೆ

Step 1: First let the child practise drawing lines, circles, and upper and lower half moons.

▶ 0:35 to 0:43 of his recording

- ✓ Joining letters to read words
- ✓ Teaching ones and tens places
- ✓ Showing sums again and again on the board
- ✓ Two classes in one room
- ✓ A child who stays away or sits quietly

05 · AI USE AND TECHNICAL STRENGTH

Where Claude works, layer by layer.

Claude drafts from his words. Code decides what ships.

Input	Sarvam Saaras v4	Hears Kannada as teachers speak it, or reads what they type.
Processing	Claude Sonnet 5.5 and Haiku 5.5	Sonnet turns his words into cited cards and answers. Haiku sorts and ranks.
Guardrails	Code first, then a second model	Names held back. Every step judged against its card.
Evaluation	637 eval checks	Replays cost nothing, so no prompt change ships unchecked.
Output	Sarvam Bulbul v3	A Kannada voice, English text, and his own clip.

Roles and versions `card_extractor@v2 · answerer@v3 · grounding_judge@v1 · triage@v4 · patterns@v4`

How this answer was made

Each step checked by Claude Haiku 5.5: 5 kept, 0 removed

✓ **First let the child practise lines, circles, and upper and lower half-moons.**

Supported

> “ಮೊದಲು ಮಗುವಿಗೆ ಗೆರೆ ಎಳೆಯುವುದು, ವೃತ್ತ ಹಾಕುವುದು, ಮೇಲಿನ ಮತ್ತು ಕೆಳಗಿನ ಅರ್ಧಚಂದ್ರ ಹಾಕುವುದನ್ನು ರೂಢಿ ಮಾಡಿಸಿ.”

✓ **Then call the child up and show how to write a letter.**

Supported

> “ನಂತರ ಮಗುವನ್ನು ಕರೆದು ಅಕ್ಷರ ಹೇಗೆ ಬರೆಯಬೇಕು ಎಂದು ತೋರಿಸಿ.”

Three more steps, all supported. Each quote is his card’s own words.

06 · GUARDRAILS

Grounded, or silent.

Enforced by code, the database and tests. Parampara never invents pedagogy.

ಇದನ್ನು ಹಿರಿಯರೊಂದಿಗೆ ಮಾತಾಡೋಣ

Let us ask an elder about this

1

Every step cites a card

A second model checks each step against his card. Unsupported steps go. Too little left, and a person answers.

2

Children safe by construction

A child's name becomes ಒಂದು ಮಗು (a child) before storage. No punishment or fear, ever. Harm to a child: Childline 1098 and a person.

3

Teachers never monitored

No rankings, no names in reports. Officers see a group only when 5 or more teachers are in it.

4

Budget is a feature

Total, daily and per session caps. Near a cap, checked answers replay and say so kindly.

Our own eval set, recorded model outputs replayed 24 Oct · 4 of 67 drafted steps were removed before shipping

07 · LOW CONNECTIVITY, LOW DATA, LOW COST

Works on a weak network, at a price a state can pay.

Works with no network

- Saved answers open, text first
- A question waits and sends on reconnect
- Recordings upload in pieces and resume

Needs the network

- Voice and photos. Typing still works.

28 of 28 network checks pass on the live site. Returning on Slow 3G, first words in 2.8 s. Offline 6 of 6.

COST PER TEACHER A MONTH

₹33

At an assumed 12 questions a month, **₹2.76** per answered question: Claude ₹1.44, listening ₹0.12, speaking ₹1.20.

SPEED, MEASURED

12.9 s typical

for a new answer, live. 1 in 20 takes 29.8 s (eval, 24 Oct). Repeats 0.8 s.

AT SCALE

₹33,200

a month for 1,000 teachers

09 · TESTING

How we tested, and what we changed.

What the field taught us this week

WE SAW	WE CHANGED
He talks in voice notes, not apps.	Many voice notes now import as one interview, consent first.
A demo nearly mixed real and Sample data.	A clear Sample warning before any reviewer imports.
His years and school name were wrong in our notes.	Corrected from his own voice and the school board.

What we run before every release

637	**Eval checks pass** on our own recorded eval set
8 of 8	**Judge path** on the live site, 30 Oct
28 of 28	**Network checks**: Slow 3G, Fast 3G, offline
8	**Safety fixes shipped** from a red team audit of the teacher path
1,027	**Unit tests**, with design and jury reviews each milestone

Limits we state openly. No field teacher has reported back after trying an answer yet. The eval set is 16 recorded answers. A new answer takes 12.9 s typically, 29.8 s at p95 (eval).

10 · FUTURE ROADMAP A PLAN

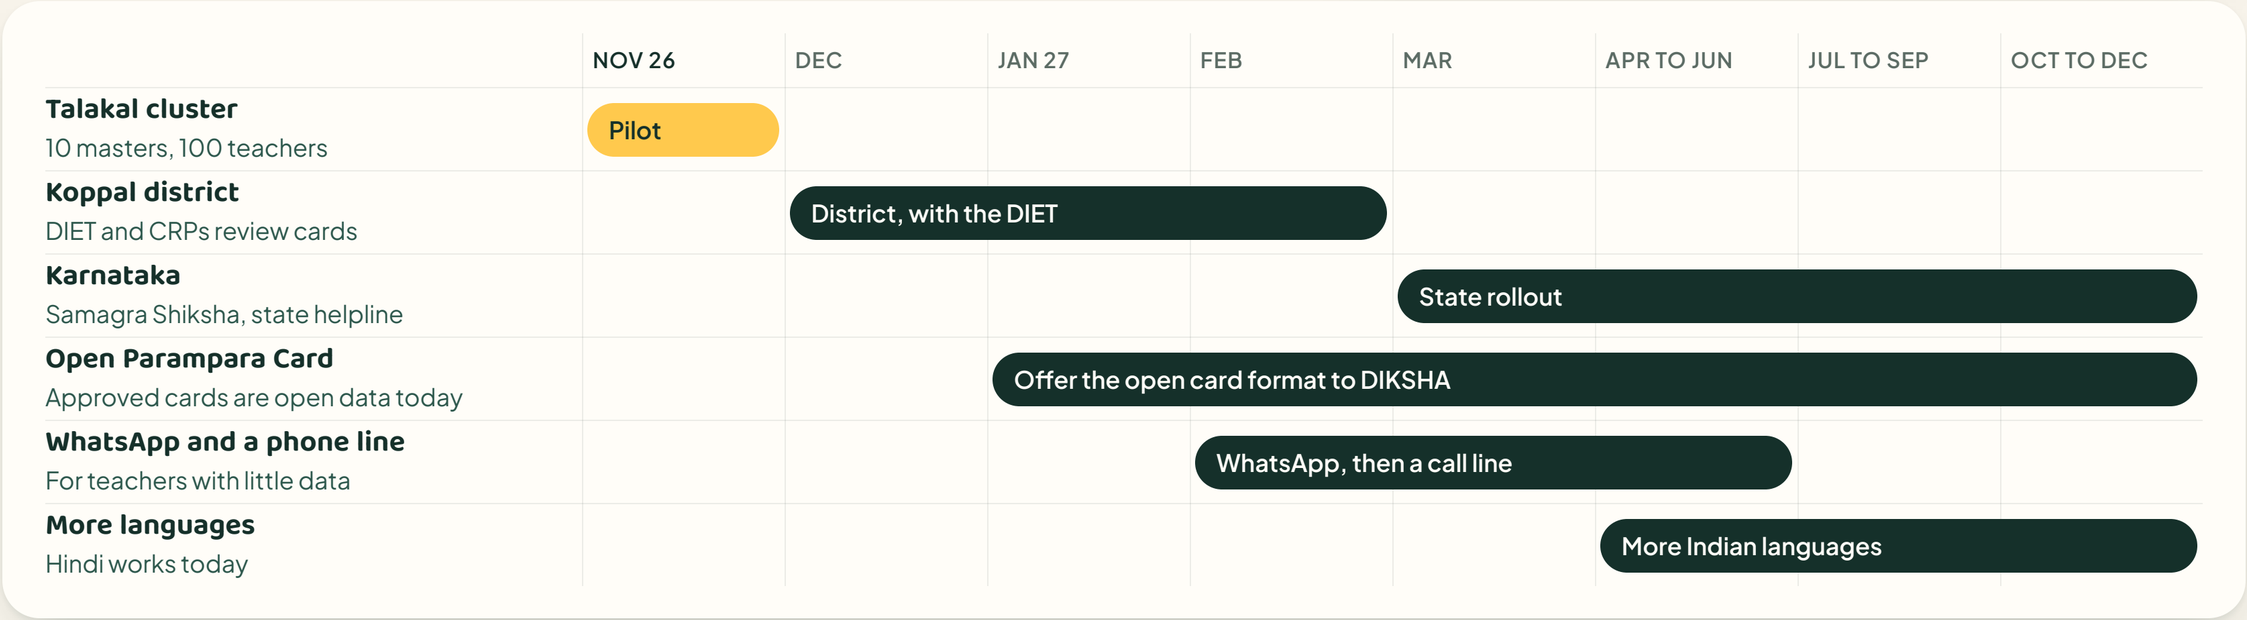

From one school to every state.

WHO PAYS

State teacher development budgets, through Samagra Shiksha: about ₹33 per teacher a month, at an assumed 12 questions.
